Sebastián A. Chico

Full Stack Developer

Cartagena de Indias, Colombia | +57 313 5199 841
sebaschico_07@hotmail.com | LinkedIn - Portfolio - GitHub

Full Stack Developer specialized in React, TypeScript, and Node.js, with experience building scalable web applications and multi-tenant systems. Skilled in designing REST APIs, implementing authentication and role-based access control, and working with relational databases. Focused on clean architecture, performance, and delivering business-oriented solutions.

Frontend Developer

Comfenalco — Sep 2023 – Feb 2024

- Developed scalable Single Page Applications (SPA) using React and TypeScript
- Integrated and consumed REST APIs for dynamic data handling
- Built reusable components to improve development efficiency
- Collaborated in team environments using Git and Azure DevOps
- Designed responsive and optimized user interfaces

Co-Founder & Full Stack Developer

Scius — Mar 2025 – Present

- Designed and developed a multi-tenant administrative system for healthcare clinics
- Built RESTful APIs using Node.js, Express, and TypeScript
- Implemented JWT authentication and role-based authorization
- Designed and managed relational databases using PostgreSQL
- Developed dynamic dashboards with branch-based data filtering
- Built appointment scheduling system with calendar integration
- Structured backend architecture for scalability and maintainability

TECHNICAL SKILLS
